February 7, 2022

Dear Residents, Families and Maple View Lodge Team Members;

Re: Easing of Restrictions

The Ministry, in collaboration with the Office of the Chief Medical Officer of Health, recently announced a plan for the gradual easing of certain temporary enhanced measures implemented to reduce the risk of COVID-19 transmission and serious illness in long-term care homes.

Note dates for further easing of restrictions are targets only. Maple View Lodge will communicate further as changes and associated dates are confirmed.

As of February 7, 2022:

- Increasing the maximum number of designated caregivers per resident from two to four.
- Continue with the limit of two visitors (currently only caregivers) at a time per resident.
- Resuming social day absences for residents who have had at least three COVID-19 vaccine doses, while supporting these residents with information about the benefits of limiting contact with others, including avoiding large social gatherings, following masking and physical distancing as much as possible, and only being in close contact with people who have had three COVID-19 vaccine doses.

Targeting *February 21, 2022:*

- Resume all general visitors five years of age and older who have had at least two COVID-19 vaccine doses.
 - With the resumption of general visitors into homes, this will also allow for the resumption of entertainers, and personal care services (where the person is not a staff member). Social group activities will remain as small groups (i.e., up to 10).

et de **réussite** en **affaires**

- Children under five years of age would continue to be restricted from entering a LTC home, except for infants 12 months or younger.
- Increase limits on the number of visitors (including caregivers) that may visit a resident at one time to three.
- Expand social day absences to all residents regardless of vaccination status.
- Resume social overnight absences for residents who have had at least three COVID-19 vaccine doses.

Targeting March 14, 2022:

- Resume visits by general visitors under five years old. No vaccination requirement for those under the age of five.
- Increase limit on the number of visitors (including caregivers) at a time per resident to four.
- Allow social overnight absences for all residents regardless of vaccination status.

Please note, surveillance testing requirements for all staff, caregivers and visitors continue to be in place.

Sincerely,

Tracy Jordan
Administrator
