RESIDENT SERVICES:

Program/Support Department

May is National Physiotherapy Month. Thank you to our Physiotherapy and Nursing Rehabilitation team for all their support in ensuring our residents maintain independence, through exercise-based treatment and rehabilitation.

We look forward to our up-coming bi-annual staff education day in May which will include the topic of Nursing Restorative. Nursing Restorative is an in-house Nursing and Rehabilitation based program that aims to support residents in maintaining or improving independence when performing Activities of Daily Living. Professional photographs of our Rehabilitation team will be featured and posted on our Facebook Page.

We recognize that Restorative and Physiotherapy are truly a team effort and thank the entire Maple View Lodge health care team for supporting these important areas of resident health and well-being.
