Housing Needs Assessment Tool (HART)

- The tool is powered by census data custom built by Statistics Canada in collaboration with HART researchers.
- Assessment features:
 - Categories that reflect the communities they represent
 - A view of household size and income together
 - Housing need amongst priority populations and those with distinct housing needs

<https://hart.ubc.ca/housing-needs-assessment-tool/>

Housing Needs Assessment Tool – Core Housing Need

Likely estimates the floor, not the ceiling

- unsuitable (because of overcrowding)
- inadequate (because of poor state of repair) and/or
- unaffordable (because the household is paying more than 30% of pre-tax income) and
- whose income levels are such that they could not afford alternative suitable and adequate housing in their community
